Statement:

The key to our future is common sense and hard work. That means commitment, tenacity, and a belief in values like enforceable laws, a strengthened economy, and fortified families that are the foundation upon which our state and country thrive. Making things happen. That's exciting to me. It's also something "real" Alaskans understand. The world has become complicated and a dangerous place. It is vital that we secure our borders, seas and airspace from enemy combatants. We must also protect our resources within the state and in the country. This is to include our fishing industry. The Trans Pacific Partnership (TPP) will destroy our Commercial Fishing Industry and our economy as a whole. I will not support TPP, unlike our current Senator, Lisa, which supports it. We must take care of our veterans. We cannot and must not let another one of our Veterans die waiting for care. Until there is a thorough vetting process in place, we must stop the current immigration of Syrian and other refugee's into this country. We must not allow foreign laws to be introduced or practiced in the United States of America. We must protect the human rights of unborn children, our 2nd Amendment rights and our Christian rights. We must put America back to work, pay down our debt and make Social Security solvent. Alaska needs strong, responsive leadership. As your Senator, I will represent you with Integrity, Honor and Strength. I humbly ask for your vote on August 16th. Thank you.
